

## 6100 Sliding Patio Door

### A Beautiful Combination of Style and Comfort

Alside Patio Doors combine indoor and outdoor living to visually expand and brighten any room. The extended glass area means added light, so every season is more enjoyable. Take pleasure in the view from the comfort of your home.

The solid construction and easy-glide operation of Alside patio doors ensures years of exceptional, maintenance-free performance. These doors never need painting – and cleaning is simple: just wipe with a damp cloth to make glass and vinyl surfaces sparkle like new.

The white pine wood mainframe substructure, combined with vinyl cladding, supplies an effective thermal barrier. The vertical sash components are metal-reinforced for added structural strength. And it's all backed by Alside's Lifetime Limited Warranty for complete peace of mind.

### Features and benefits:

- White pine wood mainframe substructure, combined with vinyl cladding, provides an effective thermal barrier
- Triple-screw, butt-joint frame construction offers maximum strength, with no drafty gaps at corners
- Vertical sash components are metal-reinforced for added structural strength
- Dual durometer glazing system absorbs shocks and offers extra weather protection
- Structural composite roller system ensures quiet and easy operation of the door panel
- Low-profile, anodized aluminum sill cover for added strength and durability
- Heavy-duty fiberglass screen with aluminum frame features an adjustable independent wheel system in all four corners
